## Archive Research Request

If you are doing a genealogical search of early settlers or residents of the Olmsted area of Cuyahoga County, Ohio, or are in need of historical information on places/things which are/were located in the Olmsted area and would like to have our volunteers search the historical materials within our holdings, please complete the information requested on this form. Although we do not have access to official documents such as birth or death certificates or County property deeds/parcel records, arrangements can be made for you to have access to our Historical Society's Ancestry.com subscription. Our collections include historical local newspaper birth and death notices; family photos, mementoes and diaries and regional and local history information including community organizations and churches. Our collections can be viewed in person. If you wish to do so, please contact us for an appointment. Our volunteers will make every attempt to assist you.

Your Name

Your Mailing Address, E-Mail and Phone Number

To assist our volunteers in their search, please describe below your research request as thoroughly as possible and mail the completed form to the above address.
